Experience

Square

Senior Product Designer | October 2024 – Present
Product Designer | January 2021 – October 2024

- Led end-to-end design for Square Banking workflows across mobile and web, partnering with product, engineering, data science, and risk teams to shape product strategy and roadmap decisions.
- Designed and launched a feature enabling sellers to deposit physical cash into Square Checking, reducing deposit availability from ~1 week to ~2 hours and contributing to increased deposit usage and reduced support tickets.
- Defined reusable money movement interaction patterns used across multiple financial products, improving transfer clarity and reducing time required to complete transfers.
- Led product discovery and experimentation through research, usability testing, and rapid prototyping; partnered with research and data teams to define success metrics and iterate using analytics and A/B testing, building experimental prototypes with Cursor, Vercel, and Figma Make.

WillowTree

Product Designer | June 2017 – January 2021

- Designed web and mobile products for enterprise and consumer clients across both short engagements and longer product initiatives.
- Led design from discovery through delivery, facilitating workshops, presenting concepts to stakeholders, and collaborating closely with engineering during implementation.
- Conducted user research and usability testing to validate concepts and refine complex workflows across cross-platform applications.

Cloudera

UX Design Intern | May 2015 – August 2016

- Designed a cross-platform design system for data engineering and analytics tools, defining UI components, interaction patterns, and front-end prototypes using HTML, CSS, and JavaScript.

Core Skills

Product Design

Product strategy, end-to-end product design, financial product design, interaction design, complex workflows

Research & Experimentation

User interviews, usability testing, prototype validation, heuristic evaluation, survey collaboration, A/B testing

Systems & Accessibility

Design systems, scalable UI patterns, design patterns, WCAG accessibility, inclusive design

Tools

Figma, Cursor, Vercel, Figma Make, Git, GitHub

Education

Rochester Institute of Technology

BFA, New Media Design
